

Send photos to us by email

If you only have a few photos, you can send them as an attachment to an email. This is a simple procedure.

- 1.) Address your email to us at office@aoraki.kiwi.nz
- 2.) Click on “attach file” (or wording to that effect, depending upon your email program).
- 3.) Find the folder where you have kept the photos.
- 4.) Select the photos you want to send.
- 5.) Click on attach, (or send as attachment, or similar wording depending upon your email program).
- 6.) Try not to send too many photos at once because they might block up your outbox and not get sent.
- 7.) Check that the photos are attached to the email. You should be able to see them in the attachments bar.
- 8.) In the “Subject” line of your email, make sure you type in the name of your loved one so that we know whose photos we have.
- 9.) Click “Send”
